(Attach additional sheets as necessary.)

I realize that I can only have one proxy manager for each Tournament Class. (For instance, if you have three warriors in the Adepts class, one proxy must proxy all of them--you can't have a different proxy for each of the different warriors in that class. However, you can have one manager proxy your Champion class warriors, and another proxy your Initiates.)

I also realize that my proxy is must sign in at the F-t-F registration table before the bouts commence, 9:00 P.M. Friday. I also realize that my proxy is responsible for filling out and modifying strategies and collecting fight output (and mailing it to me) for the above warriors.
